

Quick setup guide for your new 2.4GHZ wireless keyboard and mouse combo (stock number 70119)

Step 1: Insert the battery into the mouse.

Step 2: After inserting the battery into the mouse, replace the battery cover.

Step 3: Move the ON/OFF Switch to the "Green" position to power-on your mouse.

Step 4: Insert the battery into the keyboard and replace the battery cover.

Step 5: Insert the USB Receiver into your notebook or desktop computer's USB port. This will work in any USB port.
